RECODE YOUR BUSINESS LOCKS

LIMITED TIME OFFER

If your business has had to let some employees go during this economic downturn, and you haven't changed your locks, then you could be at risk. It's even a good idea to change the locks occasionally in order to prevent unfortunate hardware malfunctions, lock-outs and reduce the number of keys floating around.

Unfortunately, in these desperate times, crime rises and the risk of theft from break-in or thieving staff is a growing concern

Some insurance companies **WILL NOT** cover a **BREAK IN** if there is no sign of **forced entry**.

SAVE \$50.00

5-LOCK RECODES WITH 5-KEYS FOR

\$100.00 +tax
